

CGBP Training Program Accreditation

NASBITE International

NASBITE International's **CGBP Accredited Training Program** designation is an endorsement granted by NASBITE International to validate that the training curriculum, instructional material and training staff demonstrate quality, competency and consistency required to successfully deliver training in each of the four domains of the Certified Global Business Professional (CGBP) credential.

Who Should Pursue Program Accreditation?

Training organizations, universities, and colleges that want to:

- Endorse that curriculum and training materials meet the quality and content standards set forth by NASBITE International
- Validate that curriculum and training materials are aligned with the four domains of the CGBP credential: Global Business Management, Global Marketing, Global Supply Chain Management, and Trade Finance
- Support learners in expanding their international trade knowledge
- Prepare candidates to successfully secure the CGBP credential

Why Become Accredited?

The CGBP credential is the most trusted qualification in global commerce. A successful training program will not only prepare candidates to sit for the CGBP exam, but it will also enhance a program's international curriculum and advance student careers. Additional Accredited Training Program benefits include:

- Listing of the program, with logo and hyperlink, on the NASBITE International website
- Referral of the program to CGBP candidates searching for training
- Featured listing of the program in the NASBITE International Annual Conference Program each year

What is the Accreditation Process, and What is the Cost?

Requirements for program accreditation can be found on www.NASBITE.org. There are different requirements for training organizations and for colleges/universities. The application and supporting documentation must be completed and submitted to NASBITE International, along with a non-refundable application fee. This application fee is applied to the Program Accreditation fee upon approval of the application. Accredited Training Programs pay a fee of \$400 per year to maintain the accreditation.

Accreditation Period

"The CGBP practice domains have become our core competency models for international business development counselors"

"Attendees cannot thank us enough for the wealth of information and knowledge... there's nothing like having experienced personnel to provide this training and sharing their best practices from an implementation perspective"

"We got great feedback from the students, saying it was beneficial to them and helped them prepare for the CGBP exam, and our graduation rates proved that"

Attend the 33rd Annual Conference & National Small Business Exporter Summit, March 25-27, 2020 to learn from others who have developed NASBITE International CGBP Accredited Training Programs!
