Meeting President Obama’s 2020 Goal: Most Competitive Workforce in the World

IFLE funding supports President Obama’s initiative by enabling teachers and administrators to internationalize their education programs in order to prepare our students to become active and productive citizens of a global society.

Improve Access & Diversity in International Education: A World-Class Education for All – IFLE’s FY 2012 strategic plan will give targeted assistance to minority-serving institutions, community and technical career colleges, and institutions new to IFLE programs to ensure more postsecondary students from underserved and underrepresented groups will have a world-class education that includes international and study abroad opportunities.

Increasing national security and global competitiveness: Strengthen the civic fabric of democracy- This IFLE strategic goal addresses President Obama “100,000 Strong” China Abroad Initiative, the Department’s priority “Resiliency and Prosperity that aligns with OPE’s “Strengthen the Civic Fabric of Democracy.” IFLE programs enhance national capacity to develop a 21st Century workforce that possesses foreign language and cross-cultural competency to build partnerships with the global world.
